

Proposal - Healthcare AI Assistant RFP

Created: 2026-02-14T18:26:10.991650+00:00

Executive Summary

This proposal outlines a phased AI implementation with citation-grounded delivery and governance controls

Citations: e6829adc-435a-4252-93f7-3762640e73a0-1c0b03677dab3371 p1 [The solution must leverage Generative AI and machine learning to analyze customer feedback and identify trends, enabling proactive service and personalized recommendations. The solution should be scalable and secure, ensuring data privacy and compliance with regulations. It should also be user-friendly and integrate seamlessly with existing systems.]

Understanding of Problem

Client requires a secure, scalable AI platform with strict compliance and measurable business outcomes.

Citations: e6829adc-435a-4252-93f7-3762640e73a0-1c0b03677dab3371 p1 [The solution must leverage Generative AI and machine learning to analyze and synthesize data from multiple sources, including social media, news articles, and research papers. The solution should be able to identify trends, generate insights, and provide recommendations based on the analyzed data. The solution should be able to handle large volumes of data and be scalable for future growth. The solution should be able to integrate with existing systems and provide a user-friendly interface for data analysis and reporting. The solution should be able to provide real-time updates and alerts for new data and insights. The solution should be able to provide a comprehensive overview of the data and insights, including charts, graphs, and tables. The solution should be able to provide a detailed breakdown of the data and insights, including individual data points and trends. The solution should be able to provide a summary of the data and insights, including key findings and recommendations. The solution should be able to provide a detailed report of the data and insights, including a table of contents, executive summary, and detailed findings. The solution should be able to provide a comprehensive overview of the data and insights, including charts, graphs, and tables. The solution should be able to provide a detailed breakdown of the data and insights, including individual data points and trends. The solution should be able to provide a summary of the data and insights, including key findings and recommendations. The solution should be able to provide a detailed report of the data and insights, including a table of contents, executive summary, and detailed findings.]

Proposed Solution + Architecture

Primary approach: Plan A - RAG First with fallback option Plan B - Domain Fine-Tune Hybrid.

Implementation Plan

Phase 1 Discovery (2-4 weeks), Phase 2 Build (6-10 weeks), Phase 3 Scale/Operate (ongoing).

Citations: e6829adc-435a-4252-93f7-3762640e73a0-1c0b03677dab3371 p1 [4. Technical Requirements], e6829adc-435a-4252-93f7

Team and Delivery Model

Hybrid onshore/offshore team with PM, AI architect, ML engineers, data engineers, and QA.

Citations: e6829adc-435a-4252-93f7-3762640e73a0-1c0b03677dab3371 p1 [4. Technical Requirements], e6829adc-435a-4252-93f7

Pricing Assumptions and SOW Boundaries

Expected monthly run-rate: USD 2,816.00. Scope excludes source-system replatforming unless specified.

Citations: e6829adc-435a-4252-93f7-3762640e73a0-1c0b03677dab3371 p1 [Vendor must provide:], e6829adc-435a-4252-93f7-3762

Risks and Mitigations

Key risks include privacy, hallucination, and regulatory controls; mitigations include HITL and guardrail

Citations: e6829adc-435a-4252-93f7-3762640e73a0-1c0b03677dab3371 p1 [Current challenges:], e6829adc-435a-4252-93f7-37626

Differentiators

Reusable accelerators, citation traceability, and measurable evaluation framework.
